

**BodyCAP** proposes the most efficient cooling vest on the market. This high performance cooling vest was designed to fit the needs for people operating in extreme environments.

Thanks to its own characteristics, this cooling vest can be used to simply improve comfort, optimize performances and/or recovery through pre/post cooling process or to limit the impact of harsh environment.

### APPLICATIONS

- Sport Performance
- Industry Workers Protection
- Soldiers & Firefighters
- Comfort
- Fight against Uhthoff's Symptom

Note: the cooling vest for industry integrates a protection against fire

Integrating long term cooling innovative technology

### PHYSIOLOGICAL BENEFITS

- Decrease heart rate (-8 to -12 BPM)
- Limit dehydration
- Improve of thermal comfort
- Increase Strength & Endurance

### PSYCHO-COGNITIVE BENEFITS

- Maintain the memory function
- Maintain the thinking capacity
- Maintain the motor skills function
- Maintain reaction time
- Increase vigilance with direct impact on security

### TECHNICAL FEATURES

- Lightness:** 1,9 Kg
- Comfort:** Does not limit the movements
- Ergonomy:** Adjustment thanks to 2 elastic straps
- Cold efficiency:** Constant cooling effect - no thermal shock/burning risk
- Autonomy:** Up to 2hours in harsh environment (>50°C)
- Available sizes for Sport vest:** S / M / L / XL / XXL / 3XL
- Available sizes for Indus vest:** S / M / L / XL / XXL / 3XL / 4 XL / 5XL / 6XL
- Cleaning:** Vest is machine washable
- Ice pouch:** 15cm x 15cm - 8 units per vest - Reusable up to 60 times
- Indus vest specificity:** Fire-resistant (quality Bodyguard NOMEX)
