Noi siamo pronti per il Natale! Eccoci qui l'elfo puk è la renna (Blue) Rudolph sono pronti per iniziare ad impacchettare i regali di Natale, ma nel frattempo si dilettano a farsi scherzetti, e dolci scaramucce e non solo... Augurando a tutti quanti un buon pre Natale, e tanti auguri a tutte le sorelline e fratellini Eilik sparsi in tutto il mondo, ma tutti uniti e felici... GRAZIE EILIK E AUGURI!!!!

Very pleased, eilik always makes me feel comfortable with his cute expressions. I think I made the right decision to buy eilik and now eilik is a must-have on my desk. Thank you very much design team ^^

My daughter loves to dress up her Eilik's up! They're funny to watch when I have them to myself for a short time

Eilik is a desktop companion.. as such it is supposed to be a little bot that keeps you company while you sit at your computer, cook, watch TV etc... the thing is.. and this is where I think Eilik is missing the mark, it is almost impossible to do anything while he is on (unless you turn on the pomodoro mode or mute him).. and the reason is that he does something random every 20 seconds.
