

A NEW THIRD-GENERATION DEVICE

HEALBE  
GoBe3

The world's first smart band that automatically tracks calorie intake, hydration, and stress levels.

**Smaller size, more features!**

PRE-ORDER AVAILABLE

# HEALBE GoBe3 Evolution

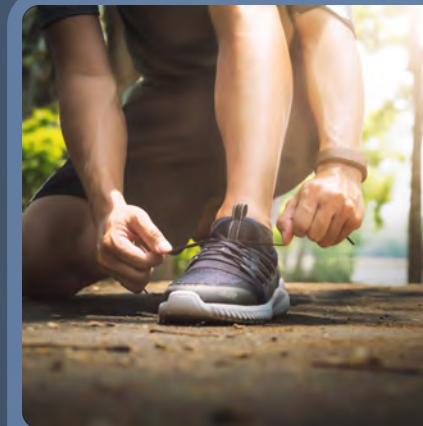

# Solution

Find out how the HEALBE GoBe3 smart band can help you change habits, develop a conscious attitude about nutrition, get in shape, improve your quality of life, and feel healthy, awake, and productive!

## Lose Weight

Do you want to shed pounds by exercising the right way? Learn how much exercise you need to melt off those calories you feasted on last night.

## Get in Shape

You're the only one who can choose the physical regimen that will make your body stronger and leaner. You're constantly burning calories while walking, working, sleeping, and breathing.

## Balance Lifestyle

You're on the right path to a healthy lifestyle. Small but consistent steps toward controlling your own body are key to the perfect body!

# GoBe3 Features

## Energy Balance

GoBe3 tracks calories burned and consumed and shows them on the band's display as well as in the HEALBE app. By maintaining a constant calorie deficit, you will be able to achieve the effective and enduring weight loss.

# GoBe3 Features

## Calorie Intake

Calorie counting is now a thing of the past — the HEALBE GoBe3 smart band will automatically show how many calories you've consumed and how many you've burned. The GoBe3 tracks your food calories using bioimpedance sensor data and the unique patented HEALBE FLOW™ technology.

# GoBe3 Features

## Calories Burned

Physical activity helps burn calories. However, calories that are used to perform the basic functions of the body are usually not considered. Use GoBe3 to accurately track your calorie burn whether you're running, working in the office, or resting.

# GoBe3 Features

## Water Balance

The smart band adapts to the individual characteristics of your body and monitors your hydration level 24/7.

The HEALBE GoBe3 understands exactly how much water you need and recommends drinking more when necessary!

# GoBe3 Features

## Stress Level and Emotional State

Stress is inevitable, but we underestimate its impact on the body. Exclusive HEALBE GoBe3 technology will help you better understand your emotions, analyze changes in your emotional state, and keep stress under control.

# GoBe3 Features

## Sleep Quality

Quality sleep improves your productivity! The GoBe3 considers many factors of night sleep: regularity, duration, anxiety, number of times awake, and number of REM phases. To wake up feeling refreshed every morning, sleep with the GoBe3 band on. You will always be aware of the quality of your night rest, and the Smart Alarm function will make waking up easy and enjoyable!

# GoBe3 Features

## Pulse

The GoBe3 monitors your heart rate while you're wearing the device using an optical monitor. The band monitors your heart rate continuously, which enables the application to receive detailed information about your parameters both day and night.

# GoBe3 Features

## Steps and Distance

The GoBe3 counts steps when you walk and run and measures the distance you travel. Step and distance data calculations are based on a unique hand-movement-reading algorithm. To make the calculation even more accurate, the GoBe3 also takes your height and step length into account.

## **International patents and validation**

The accuracy of Calorie Intake, Calorie Burn (Energy expenditure) and Hydration measurements is confirmed by UC DAVIS, California (USA) and by the Red Cross Hospital, Guangzhou (China).

**Calorie intake - 89% accuracy.**

**HEALBE products are protected by 36 patents.**

# Success stories

More than 35,000 people worldwide have already joined the HEALBE community and achieved positive results!

## Best digestion lessons

Chau got the look she wanted for 20 years and learned more about herself

## 50 Lbs off in 15 Months
