MYOVOLT®

MYOVOLT®

Quick start guide.

- 1 Wrap firmly around the body and fasten with the velcro tab.

- 2 **Press and hold for 3 seconds** to switch device on or off.

- 3 A short press of the switch will change the treatment mode.

Mode one - Wave.

Great for muscle recovery.

Mode two - Pulse.

Great for recovery, flexibility and range of motion.

Mode three - Continuous.

Great for joint and muscle warm-up.

The device will automatically turn off after delivering a 10 minute treatment.
