

QardioArm

Smart wireless blood pressure monitor which is clinically validated to give you a medically precise reading anytime and anywhere

EAN: 854894005005
MSRP: 130,-€

QardioArm is clinically validated to measure your systolic and diastolic blood pressure and heart rate with medical-grade accuracy and precision. It also includes irregular heart beat detection which QardioArm uniquely stores to help you track your heart fully. View your blood pressure readings as a list or in an easy-to-understand chart, and visualize them on the World Health Organization scale. All your blood pressure measurements are automatically saved in Qardio's secure cloud, from which you can choose to share them with those closest to you or your doctor, empowering them to give you the best possible care.

QardioArm is the wireless blood pressure monitor that fits your daily life with its revolutionary design and effortless user experience. QardioArm makes it simple and convenient to have your smart blood pressure monitor with you at all times. QardioArm is the only blood pressure monitor that doesn't look like a medical device. It is light, portable, compact, and discrete. It can be with you anytime, anywhere. QardioArm automatically connects to your Android or iOS devices via bluetooth for a simple and effortless measurement. QardioArm was the first medical device to support Apple Health. All your measurements can be downloaded securely and automatically.

BENEFITS

- Medically Accurate
- Stylish and Portable
- Easy to Use
- Share Data
