

Smart Sock

- MONITOR FOOT LANDING, CADENCE
- IMPROVE SPEED, PACE AND DISTANCE
- TRACK MILES AND COMPARE SHOES
- REAL-TIME AUDIO FEEDBACK AND WEB DASHBOARD

MUST BE USED WITH SENSORIA ANKLET:

- BLUETOOTH® SMART
- 3-AXIS ACCELEROMETER
- FCC, CE CERTIFIED

The Sensoria® Fitness Socks are infused with textile pressure sensors that can help you improve running form. The Sensoria Fitness app real-time audio feedback will help you track your foot landing (heel or ball), cadence, foot contact time on the ground, time to buy new shoes thanks to our odometer and many other parameters such as pace, speed, GPS track, distance and more. All this data is transmitted to the Sensoria Fitness mobile app via the Bluetooth anklet connected to your sock. This information is available to you through the Sensoria Web Dashboard and it will help you improve speed, pace, distance and may also help you recover or reduce your chances of getting injured. Focus on becoming the best runner you can be!

FEATURES

TEXTILE PRESSURE SENSORS
ANTIMICROBIAL
